

Integrated Synthetic Fuel Incorporated

Mission Statement:

*In order to sustain a secure future,
fuel and the means of fuel production must be
renewable, reliable and clean.*

*Only through leadership and committed excellence can a group
strive to attain and develop the solutions required to preserve an
everlasting supply of fuel for the future.*

*Integrated Synthetic Fuel Incorporated
is committed to the discovery and the successful production
of the fuels required for enhancing and preserving
the fuel requirements for generations to come.*
